

L1: login

Clicking here will cause side panel to collapse. See L6 for collapsed panel view.

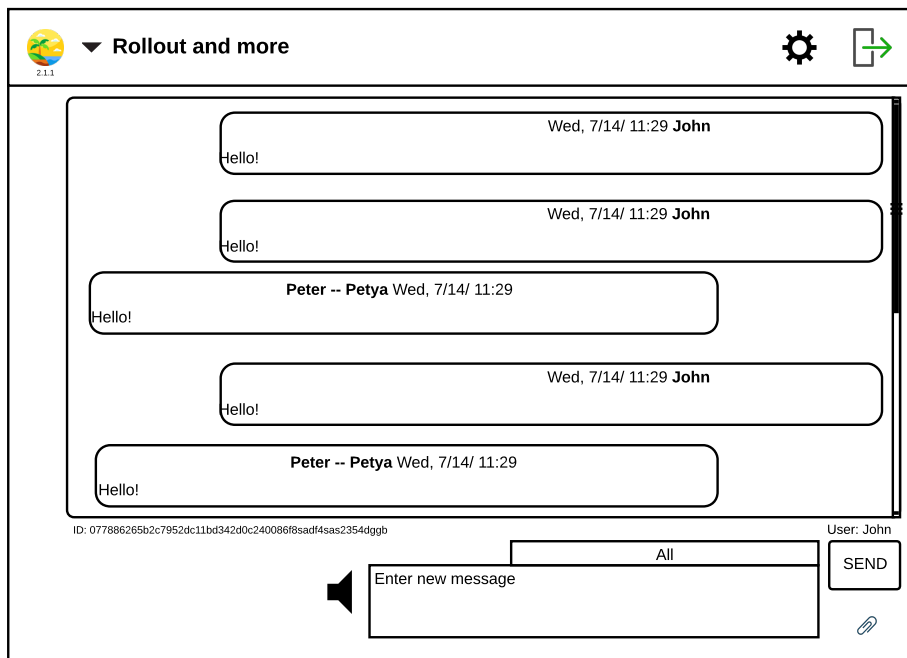

L2: After vault login. No active topic is selected. Ephemeral messages arrive.

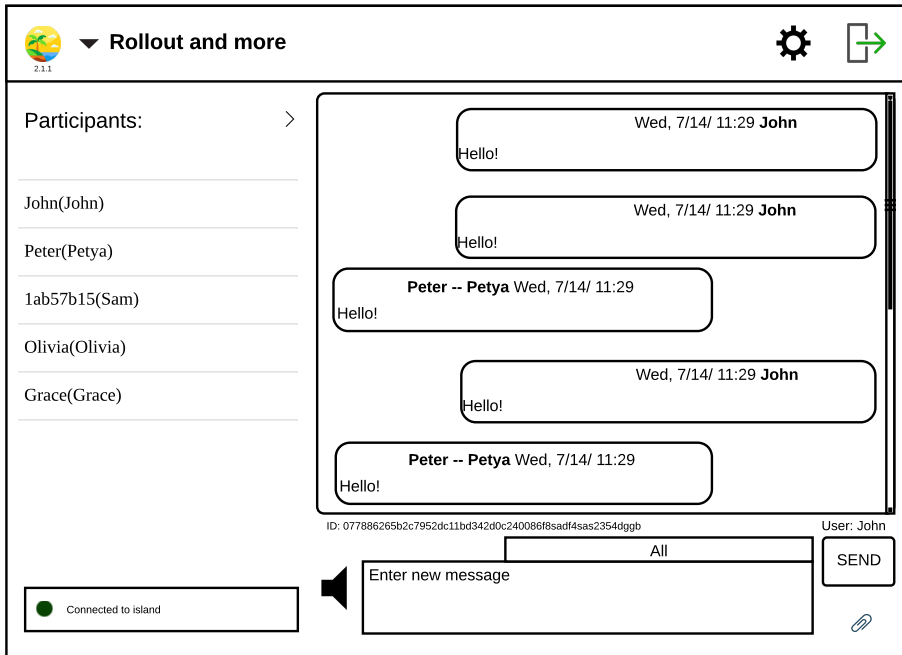

Input panel shows only if active topic is selected

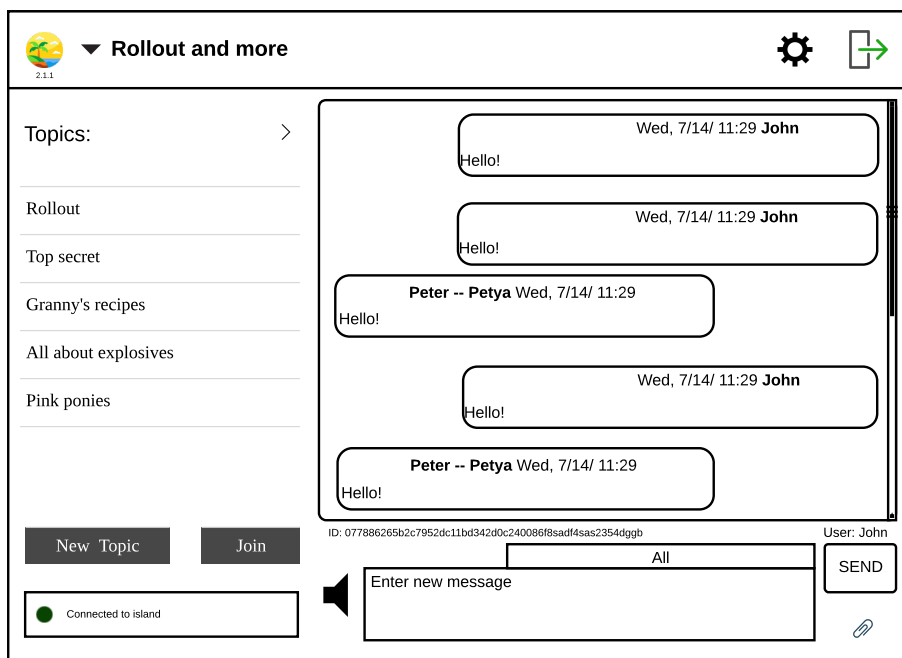

L5: Active topic Rollout and more, side pannel swithced to invites management for current topic

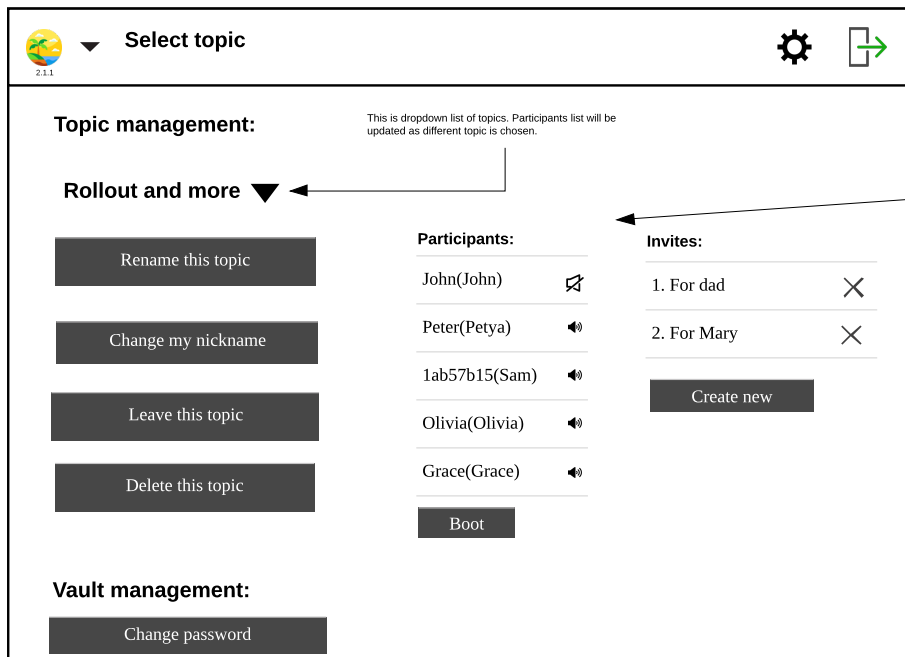

L6: Side pannel collapsed, topic active

L3: Topic opened

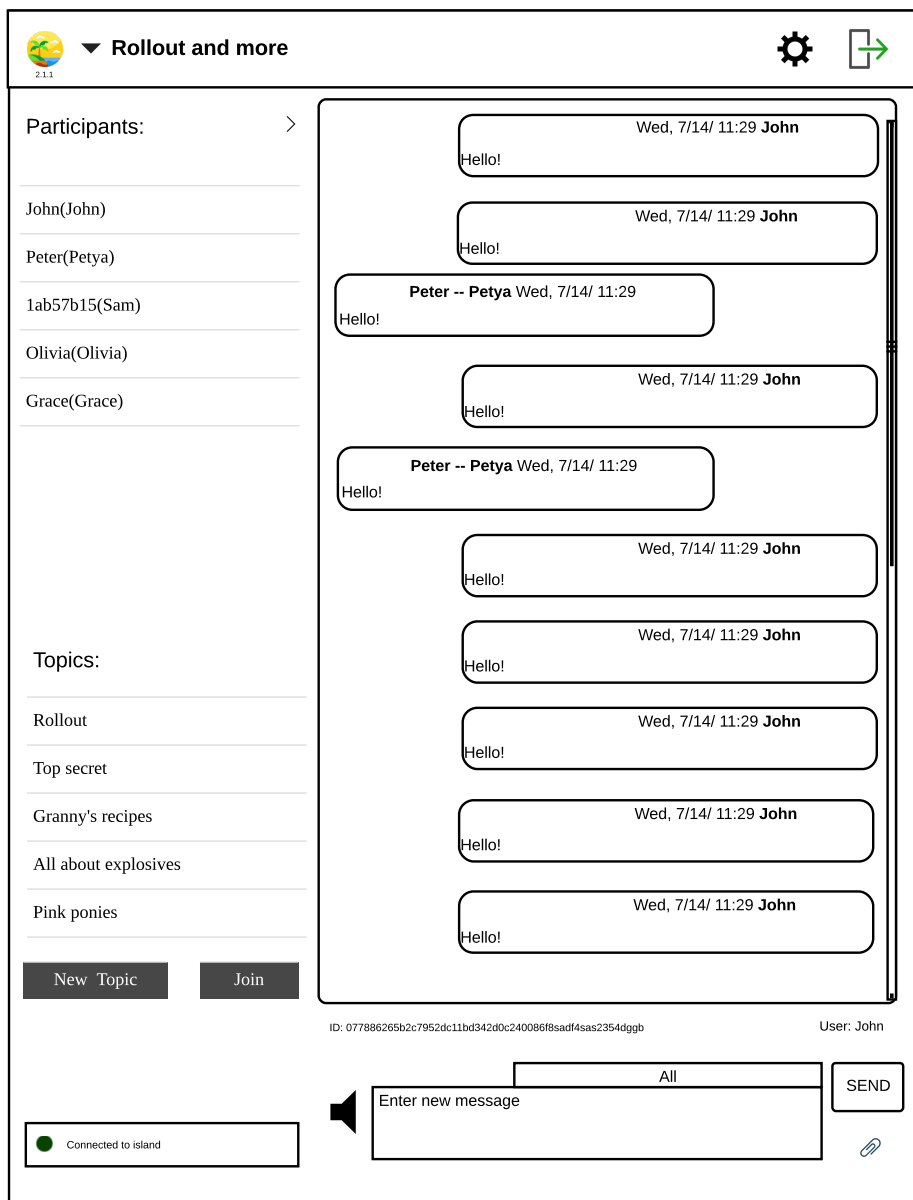

L4: Active topic Rollout and more, side pannel swithced to topic browsing

Sections will be collapsed in a single column as available width shrinks. That relates especially to portrait layout on mobile devices

L7. Options view after gear button clicked

L8: Example of side pannel combined view. Useful for large screens
